

positive regulation of transcription by RNA polymer...
negative regulation of urine volume
coronary artery morphogenesis
cholesterol catabolic process

synaptic vesicle membrane
synapse
Schaffer collateral – CA1 synapse
presynaptic membrane
presynapse
postsynaptic membrane
postsynaptic density membrane
postsynaptic density
postsynapse
plasma membrane
nucleus
nucleoplasm
lysosomal lumen
Golgi membrane
Golgi apparatus
glutamatergic synapse
focal adhesion
extracellular space
extracellular region
external side of plasma membrane
endosome
endoplasmic reticulum membrane
early endosome membrane
dendritic spine
dendrite
cytosol
cytoplasmic side of plasma membrane
cytoplasm
collagen-containing extracellular matrix
centrosome
centriolar satellite
cell surface
caveola
axon terminus
axon

cal Pro

Cellular Components

Species
Acropora pulchra
Pocillopora tuahiniensis
Porites evermanni

transmembrane signaling receptor activity
testosterone 16-β-hydroxylase activity
steroid hydroxylase activity
RNA binding
pyridoxal phosphate binding
protein phosphatase inhibitor activity
protein kinase activity
protein homodimerization activity
protein heterodimerization activity
phosphatidylserine binding
phosphatidylinositol-4,5-bisphosphate binding
nuclear receptor coactivator activity
metal ion binding
iron ion binding
ionotropic glutamate receptor binding
integrin binding
identical protein binding
heme binding
enzyme binding
endonuclease activity
DNA-binding transcription activator activity, RNA p...
cholesterol 24-hydroxylase activity
calmodulin binding
axon guidance receptor activity
ATP binding
alpha-1,6-mannosylglycoprotein 6-beta-N-acetylgluco...
acid phosphatase activity

Molecular Functions
